

## TRAVELLING IRRIGATORS

Mechanised systems have their place in the irrigation sector, especially where labour problems occur. In some instances it is also more economical and applicable than other systems.

The House of Irrigation offers four types of travelling irrigators, from the smallest to the largest:

### ***Perrot Rollcart***

Travels and irrigates on its own. Used mainly for large green areas, sportsfields, nurseries and gardens. (See p 27)

### ***Crawler***

The best in the field. Used mainly for sportsgrounds, pastures, vegetables and grass fields. (See p 29)

### ***Giunti travelling irrigator***

Allows the automatic irrigation of crop fields, pastures and parks and is also used for dust suppression. Three models are available to cover all requirements. (See p 31)

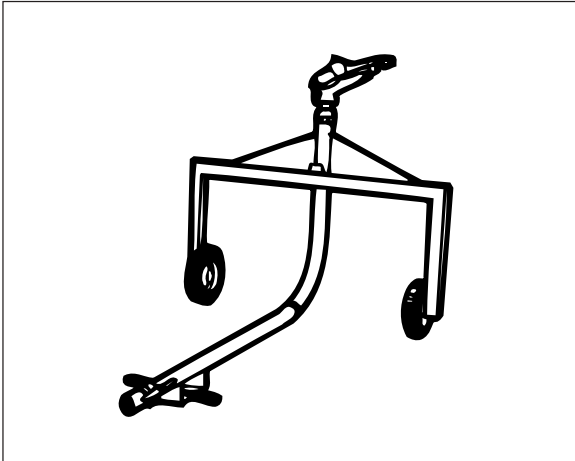

### ***Wheel move***

Safest and most reliable mechanised sprinkler system. Sportsfields, cash and permanent crops, vegetables and pastures. (See p 33)

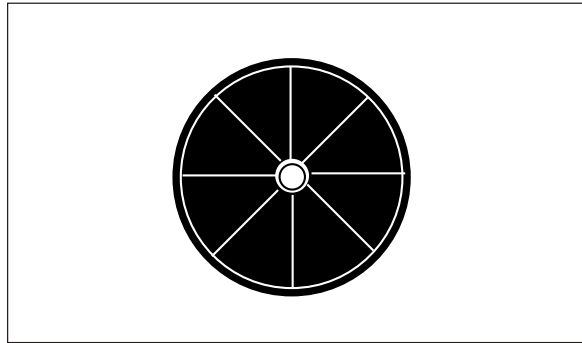

### Gun stand trolleys

Code	Description	Size (mm)	Mass (kg)
GS	High quality galvanised steel trolley. Moved by hand after each stand	Light duty 40	33.0
		Medium duty 50	36.0
		Heavy duty 65	40.0

### Hoses

Code	Description	Size (mm)	Mass (kg)
LF	High quality Aqualine layflat hoses	50 x 100	57.0
		63 x 100	64.0
		75 x 100	72.0

### Hose clamps

Size & code	Mass (kg)
NA31-36	0.21
NA37-42	0.22
NA41-46	0.23
NA45-50	0.24
NA54-61	0.25
NA65-72	0.26
NB82-90	0.27
NB86-94	0.28
NB102-110	0.29
NC154-168	0.58
